

TECHNOLOGY / MANAGEMENT CONSULTANT (M/W/D)

To strengthen our consulting team we are looking for motivated and customer-orientated colleagues!

Challenging tasks that move you forward

- You complement your project team in the operative day-to-day business through self-dependent work packages in the areas of strategy & organization, R&D, operations, innovation and project management
- You will be involved in the development of innovative and sustainable solutions and business models along the entire value chain
- You will help our customers to identify decisive potential for improvement and to use synergies effectively
- You will perform precise and methodically accurate analyses, devise solution concepts and ensure their implementation
- You accompany multidisciplinary work appointments and management workshops and support both in terms of content and methodology
- Within the project you take responsibility as the customer's first point of contact and interact as an interface within the customer's organisation

Your profile to make a difference with us

- Successfully completed, technically oriented studies with a focus on industrial engineering, mechanical engineering or a comparable orientation
- Basic knowledge of project management, preferably in the form of internships, theses, etc.
- Very good organisational, communication and assertiveness skills as well as the ability to confidently present your own results in front of an audience
- Ability to work in a team, social skills and a systematic and structured approach to work
- Strong service mentality, initiative and high flexibility, personal commitment and sense of responsibility
- Willingness to travel
- Very good knowledge of English
- Confident handling of MS Office, especially Excel and PowerPoint

OUR OFFER TO TAKE OFF TOGETHER WITH YOU

We offer you a **permanent position** with **interesting projects and perspectives** in various industries and companies.

Through targeted development measures, we **promote opportunities to expand your knowledge and skills.**

From the very beginning, we give you a **high degree of trust, responsibility and freedom** to work on your projects.

You can expect a team with **flat hierarchies** in which the **internal exchange of experts** is encouraged.

You can get some impressions here:

Hanselmann & Compagnie Ltd  (www.hcie-consulting.de) is a medium-sized management consulting company that has its registered office in Leamington Spa – our headquarter is located in Stuttgart /Germany.
